

## INFORMATION & CAPABILITIES

Duncan Aviation's Calibration Services is an A2LA accredited calibration laboratory, certified to ISO/IEC 17025. Our calibrations are traceable to the National Institute of Standards and Technology (NIST).

Bring your tools with you the next time your aircraft is serviced at our full-service maintenance facilities in Lincoln, Nebraska, or Battle Creek, Michigan. We will calibrate them while your aircraft is here for a maintenance event.

### TOOL CALIBRATIONS

Duncan Calibration Services are available to anyone with measuring and test equipment that require periodic calibration, including non-aviation companies. We will follow your company's calibration program and issue a calibration certificate and data, upon request. We are available to assist with your scheduling to meet your needs.

### CALIBRATION SERVICES

- Certified to ISO/IEC 17025
- Certified ASQ-Certified Calibration Technicians
- Calibration data is traceable to NIST
- Repair capabilities on many of the items we calibrate

### SEND-IN TOOL SERVICES

Lincoln, NE 68500

All other carriers, ship to:  
Duncan Aviation Calibration Services  
4001 N Park Rd  
Lincoln, NE 68524

### CAPABILITIES

#### Aviation / Radio Frequency

- Digital pitot static test sets (RVSM)
- Avionics test sets
- Ramp testers
- Attenuators
- Analog pitot static test sets
- Tensiometers
- Watt meters
- Sight compass
- Fuel quantity test sets
- Battery chargers
- Communication monitors

#### Electrical

- Multimeters
- Oscilloscopes
- Megger
- Signal generators
- Clamp-on current meters
- Power supplies
- Frequency counters
- Timers
- Resistance boxes
- Angle position indicators

#### Dimensional

- Micrometers
- Dial indicators
- Calipers
- Crimpers
- Digital Protractors

#### Thermodynamics

- Thermometers
- Thermocouples
- Data loggers
- IR Thermometers
- Humidity

#### Pressure

- Pressure transducers
- Pressure gauges

#### Mechanical

- Torque wrenches
- Scales
