OUR COMMITMENT:

To leverage the extensive experience and resources of Duncan Aviation for the benefit of business aircraft sales and acquisition clients worldwide. Put 65+ years, more than 2,500 team members worldwide, and the experience that comes with more than 3,500 aircraft transactions to work for you.

Ann Pollard

+1 781.249.7330 | Ann.Pollard@DuncanAviation.com

Ann Pollard is a skilled aviation professional with 30+ years of industry experience. Before joining Duncan Aviation in September of 2021, Ann held the positions of Vice President/Director of Sales & Acquisitions, Director of Charter and Managed Aircraft Accounts, Airport Manager, and FBO/Operations Manager at Shoreline Aviation. She has extensive experience with complex aircraft transactions, aircraft management relationships, and development/oversight of completion projects, inspections, and avionics/cabin upgrades.

Ann currently serves on the Board of Directors of the Massachusetts Business Aviation Association and previously served on the NATA Board of Directors, as well as on the boards of several other industry and charitable organizations. Her own experience as a pilot combined with her diverse skillset contribute to her ability to think outside the box with a big picture view.

Ann has been a part of hundreds of aircraft transactions, and has been involved with many aircraft through multiple ownership changes. She also enjoys helping owner-pilots achieve their goals, which often translates to an upgrade path spanning many years. The most complex upgrade path she has been involved in to date involves helping an owner pilot transition from a Diamond DA40 to a Falcon 2000LX, with many interim steps along the way.

Founded by Donald Duncan in 1956 as an Aircraft Sales company, Duncan Aviation is a 4th generation, family owned MRO with more than 2,500 employees who are dedicated to supporting all aspects of aircraft operation and ownership. Duncan Aviation has developed an unparalleled network of contacts by providing services to more than 4,000 aircraft each year and maintaining relationships with nearly 60,000 aircraft owners, operators, and industry sources worldwide. We have a global reputation of trust, transparency, and innovation.
